

An Exceptional Learning Environment

Our son Robert has attended Mountain View Academy since pre-school in 2005-2006 and is now in grade 3. Through dynamic teaching methods Robert excelled through kindergarten and Grade 1 in one school year. We chose Mountain View Academy because of the close family-like setting and remain due to the cultural experiences of second languages, art and music offered him. We have been so satisfied with his accomplishments to date; we have decided that he will continue at Mountain View Academy through graduation. We love Mountain View Academy and would recommend it to anyone who wants their child to experience an exceptional learning environment.
